EASY TO FOLLOW ONLINE PURCHASE PLANS TO SUIT EVERY FAMILY

1 to 1 Computer Provision

Providing every student with access to their own portable computer device that they can use anywhere and anytime to increase their learning opportunities.

1-to-1 is about learning, not technology. Today’s students need a richer and more engaging curriculum that meets the demands of an increasingly globalised and interconnected world in the 21st century. Access to Wikis, blogs, webcasting, distant experts, mentors, and to online communities can help to break down classroom walls, opening up exciting possibilities and creating a powerful educational journey. ICT-rich learning and teaching opportunities can increase student participation, engagement and achievement, and enable students to connect with experts and other learners anywhere in the world. Newcomb Secondary College aims to provide the best learning experience for all students. To help our students achieve their best we encourage all students to have access to a computer device, either through our Dell/Newcomb SC purchase plan or a Bring Your Own Device (BYOD) from home.

Buying your computer package through the Newcomb SC/Dell portal gives you great value and ensures that the device you buy will meet the future needs of your student’s education. All computers will be loaded with Windows 8.1 and Microsoft Office 2013 full version and a pack of over 40 education software titles that amounts to a considerable cost saving.

We highly recommend the Accidental Damage Protection to give you added peace of mind in the event of a drop, spill or other breakage. Full details are on the portal home page below each computer.

How to Order

CUSTOM WEB PORTAL
Go to our new web portal to see what’s on offer.

PICK YOUR OWN PACKAGE
Check the details of the items you want to buy and ADD them to your basket. Your total amount due appears as you go.
